

Humanitude Caregiver Training

Caring for persons living with dementia is challenging?

Find solutions with Humanitude™

This course is specially designed for family caregivers and domestic helpers. You will learn how to:

- Communicate with older persons through Humanitude relational techniques, "Sensory Capture"
- Promote well-being with the 4 pillars of Humanitude: Gaze, Speech, Touch and Verticality (upright posture)
- Manage common challenging situations in dementia care
- Apply Relational Handling techniques to assist older persons to stand up and walk

About **HUMANITUDE™**

Originated in France, Humanitude™ is a care methodology that restores dignity to vulnerable persons and fosters care relationships. It has since expanded globally, gaining recognition for its relational approach to caregiving. Humanitude has been adopted in some major hospitals and nursing homes in Singapore. It has proven positive outcomes on both caregivers and care recipients. For more information, please visit www.humanitudesingapore.com
